

Share Your Vision.

Help Shape Cleveland Township's New Master Plan!

A new master plan is in the works for Cleveland Township, and we want to hear from you!

Much like a blueprint, a master plan is a guide for development and resource management in a community. Cleveland Township's existing Master Plan was last updated in 2009. Township officials began work on the new master plan in April 2016, focusing on natural resource preservation, efforts to strengthen the local economy, and identifying the community's vision for the future of the township.

Come to the public kickoff on June 23rd! Community planners from the Land Information Access Association (LIAA), a nonprofit community planning organization based in Traverse City, will present an overview of the master planning project and facilitate an interactive activity. Light refreshments will be provided.

Public Kickoff

**Thursday, June 23rd, 2016
7 to 9 pm**

Cleveland Township Hall
955 W. Harbor Highway

Light refreshments will be provided.

Presentations from speakers:

- **Tom Ulrich**
National Park Service
- **Sarah Lucas**
Networks Northwest
- **Yarrow Brown**
Leelanau Conservancy
- **Tom Stephenson**
Connect Michigan
- **Tim Stein**
Cleveland Township Supervisor

Get Involved!

Local planning processes lay the groundwork for transportation improvements, economic development programs, and community improvement efforts. Public involvement is key to this planning. All residents are invited and encouraged to get involved and help create a vision for the future of Cleveland Township. Times and locations for future public gatherings will be posted on the project website, <http://clevelandtwp.liaa.org/>.

- Sign-up for e-newsletter updates on our project website
- Leave general feedback and comments on the project webpage
- Fill out the Cleveland Township Master Plan survey in July
- Attend a regular planning commission meeting for updates, held at 7 p.m. on the first Wednesday of every month at Cleveland Township Hall
